HYGGER HORIZON AQUARIUM KIT

HYGGER NEW VIEW

The Hygger Horizon Aquarium Kit is one of Hygger's New View Aquarium Kit Series. Perfect for an avid aquarist or anyone looking to break into the aquarium hobby, the Horizon is a great mix of utility and beauty. The Horizon is a stylish complement to any home or office space. Hygger will change your view!

1. PRODUCT FEATURES

Perfect Starter Aquarium: The kit includes the proper equipment for starting an aquarium, and is modeled after a traditional aquarium.

Perfect for plants, small fish, goldfish or betta: The aquarium fits almost anywhere. Its the perfect size for plants, small fish, goldfish or betta.

Unique 3D Background Design: Brings an exciting new look to aquatics, combining the most modern aquarium design with the beauty of nature. The 3D background CANNOT be disassembled.

Curved-front Glass Aquarium: The highest clarity glass with curved-front design lead to the wide view.

Frameless construction without hood: Convenient to fix the additional equipment you want.

Easy to set up and maintain: The design of this aquarium kit takes all the guesswork out of setting up an aquarium. Each item in the kit is easy to fit and maintain.

2. PACKAGE INCLUDED:

1× Aquarium glass tank with 3D background

1× Extended adjustable led light

1× Internal power filter

1× User manual

3. QUICK SETUP GUIDE:

A. Unpack the aquarium kit.

B. Check parts according to the pack list, if anything is missing or cracked, please contact the seller.

C. Tank setup:

a. First clean the tank and filter by clean water and towels. Do not use chemicals not intended for aquarium use.

b. Place the tank on a level, sturdy, completely flat surface in your desired location. Keep away from direct sunlight and air vents.

c. Rinse gravel and decor then decorate your aquarium before adding water to avoid over-filling.

d. Fill the tank with room temperature tap water treated with aquarium conditioner to remove chlorine.

e. Rinse the power filter cartridge and assemble it, then fit the power filter into the preformed hole with the suction cups.

f. Position the extended LED light to the top of the tank properly.

g. Plug in the led light and power filter, and turn on.

4. TIPS TO SUCCESSFUL AQUARIUM:

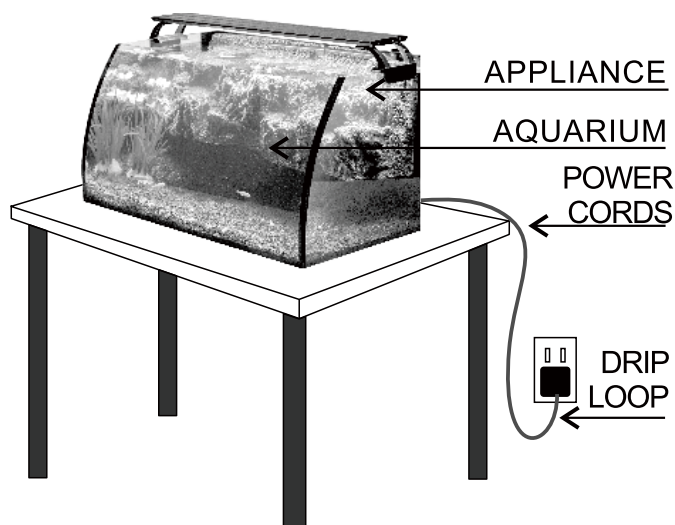

A. Keep the LED light on for a maximum of 8 hours per day.

B. Change 25% the water once per week.

C. Keep properly the water level, in order to keep the power filter working.

5.WARNING: To guard against injury, basic safety precautions should be observed including the following:

1. Read and follow this user manual strictly.
2. DANGER-To avoid possible electric shock, special care should be taken since water is employed in the use of aquarium equipment. For each of the following situations, do not attempt to repair yourself. Return the appliance to an authorized service facility for service or discard the appliance.
 - A. If the appliance falls into the water, DO NOT reach for it! First unplug it and then retrieve it. If electrical components of the appliance get wet, unplug the appliance immediately.
 - B. Carefully examine the appliance after installation. It should not be plugged in if there is water on parts not intended to be wet.
 - C. Do not operate any appliance if it has a damaged cord or plug, if it is malfunctioning or if it is dropped or damaged in any manner.
 - D. To avoid the possibility of the appliance plug getting wet, position aquarium stand and tank to one side of a wall mounted receptacle to prevent water from dripping onto the receptacle or plug. A “drip loop”, shown in the figure below, should be arranged by the user for each cord connecting an aquarium appliance to the receptacle. The “drip loop” is the part of the cord below the level of the receptacle, or the connector. If an extension cord is used, to prevent water traveling along the cord and coming in contact with the receptacle. If the plug or receptacle does get wet, DO NOT unplug the cord. Disconnect the fuse to the circuit breaker that supplies power to the appliance. Then unplug and examine for the presence of water in the receptacle.

3. Close supervision is necessary when any appliance is used by or near children.
4. To avoid injury, do not contact moving parts or hot parts such as lamp bulbs and so on.
5. Always unplug the appliance from the outlet when not in use, before putting on or taking off parts, and before cleaning. Never yank the cord to pull plug from outlet. Grasp the plug and pull to disconnect.
6. Do not use an appliance for other than intended use. The use of attachments not recommended or sold by the appliance manufacturer may cause an unsafe condition.
7. Do not install or store the appliance where it will be exposed to the weather or to temperatures below freezing.
8. Make sure an appliance mounted on a tank is securely installed before operating it.
9. Read and observe all the important notices on the appliance.
10. If an extension cord is necessary, a cord with a proper rating should be used. A cord rated for less amperes or watts than the appliance rating may overheat. Care should be taken to arrange the cord so that it will not be tripped over or pulled.
11. The 2 conductor power cord has a polarized plug (one blade is wider than the other). As a safety feature, this plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless plug can be fully inserted. Do not attempt to defeat this safety feature.
12. The appliance is intended FOR HOUSEHOLD USE ONLY. Do not use or mount the appliance in such a way that the top vents are restricted or blocked. These vents are necessary to avoid over heating and ensure safe operating temperatures.
13. SAVE THIS USER MANUAL.

Thank you for choosing Hygger, making aquarium keeping easier one product at a time.

If you have any problems or suggestions for the aquarium kit, please contact us by email before leaving feedback or opening a case, it will be the fastest way to solve your problem.
