

# HG-953 USER MANUAL

Hygger Aquarium Magnet Cleaner

Hygger aquarium magnet cleaner used as scrubber and scraper, suitable for freshwater and saltwater tanks. Please read this user manual carefully before using and follow strictly in accordance with the manual.

**WARNING:** Do not use stainless steel blade for acrylic aquarium.

Do not put your fingers between the grip and the black scrubber pad, be careful of your fingers being pinched by the cleaner

## 1. PRODUCT FEATURES

**Super Strong Magnetism:** This hygger aquarium magnet cleaner is made of pricy rare earth magnet, with strong magnet which will stick on the fish tank firmly and securely.

**Multi-function:** The cleaner can be used as scrubber or scraper. The black scrubbing pad is covered with ultra-fine cleaning contton which will scrub away soft algae, also can protect the tank from scratched. Stainless steel blade and plastic blade can scrap the coralline algae and so on.

**Special Blade:** The stainless steel blade working side is rounded edge design, not sharpened edge. So it is safe for tanks and user.

**Practical Appearance:** Ergonomic designed curved handle is easy to hold.

**Float Design:** Once take down grip, the black scrubber pad bounce to float on the surface of aquarium then you can fetch it without getting your hands wet or disturbing any of your fish or plants.

### Parameter:

Model	HG-953-S	HG-953-M
Size	120x50x45MM(4.7x2x1.8")	130x55x50MM(5.1x2.2x2")
Suitable	≤5/8 " thickness glass	≤3/4 " thickness glass

## 2. METHOD OF APPLICATION:

- ✓ The two blades are interchangeable and easily replaceable.
- ✓ To take down the blade takes a little force: thumbs on both sides of the blade to push out, but be careful with your fingers while installing.

- ✓ Any time not put your fingers between the grip and the black scrubber pad. If you want to take the cleaner you can put your fingers on the side of it and at the same time keep suck the grip and the black scrubber pad at a long distance.

- ✓ To attach the cleaner to the aquarium, start by placing one piece inside the aquarium while the other on the outside. (Make sure they are away from each other when placing against glass to avoid damage to glass). To do so, after placing one on the outside and the inside, then slowly slide them overtop of each other to put magnets to use. Once magnets have attached, you can proceed to use the product to clean the glass.

- ✓ To ensure the best cleaning results, please clean the magnetic brush after each use.
- ✓ When not in use, put it back in the box for storage.

### 3. ATTENTIONS:

- ✓ Please read this user manual carefully before using and follow strictly in accordance with the manual.
- ✓ Please install and undo the blades carefully, also handling it well, because of blade edge.
- ✓ Please more caution with this very strong magnet, do not put your fingers between the two pads, simply rotate 1/4 turn to separate cleaner.
- ✓ Please keep the magnet cleaner away from children, due to strong magnetism.
- ✓ Please don't wear pacemakers and implanted heart defibrillators devices when you use the magnet cleaner.
- ✓ Please rotate one of the pads by 90 degree to separate the two pads, when them are together.
- ✓ Please make sure magnet cleaner stay away from high temperature that may cause demagnetization.
- ✓ Please keep a distance with all magnet-prone items, scissor, for example.
- ✓ Please be careful to place it, knocking it, dropping it at a high place, etc.,
- ✓ Please do not directly suck the grip and the black scrubber pad together. Because the product has strong magnetism, it needs a strong external force to separate them when they are sucked together.
